

Form 0423 - PT combine cleaning fan applications for various model years and serial numbers

4-row (1995 and prior).....#S5908 orig., replaced by #S51166, replaced by 70660 kit, **use #S51705 fan**

4-row (1996, 1997, & 1998) .#S51166, replaced by 70660 kit, **use #S51705 fan**

4-row (1999 to present).....use #S51272

6-row (1994 and prior).....#S5908 orig., replaced by #S51166, replaced by 70660 kit, **use #S51705 fan**

6-row (1995)#S51158 orig., changed mid-year to #S51272, use #S51272 for all replacements

6-row (1996 to present).....use #S51272

#S5908, #S51158, & #S51166 fans are no longer used for any applications

With all machines, verify number of blades and diameter of fan. A #S51166 has 12 blades and 16-1/4" diameter. A #S51075 has 24 blades and 16-1/4" diameter. A #S51272 has 24 blades and 14-5/8" diameter. Fans of unlike diameter cannot replace each other without other modifications. Please see Service department for specific recommendations.

A 70660 kit can still be used to replace a 12 blade fan, but the S51705 is a direct slide out-slide in replacement.
